EXCAVATING

April 2020 | Project Update No. 5

Hello and welcome to the *Sartell 2019 East Side Reconstruction Project Update*. This update is intended to inform and keep you updated on the project details/status.

## Spring is in the air, which means... Construction is right around the corner!

First off we want to thank you for your patience and understanding last year during the bulk of the East Side Construction... we had a very wet year, which made construction interesting for everyone at times. Working with understanding residents, made it easier... so Thank you!

Over the next few weeks you will start to see some construction activity. Remaining items to be completed this spring / summer include: some pipe work, concrete, LOTS of restoration and landscaping, milling of pavement and final paving.

We all know that spring weather can be unpredictable... and so can construction schedules. Below is the tentative schedule, which may change due to weather:

- Week of April 20th – Start of grading and restorations.
- End of April and as Conditions Allow – Concrete work.
- End of April / Start of May and as Conditions Allow – Landscaping and turf restorations.
- Mid/End May – Milling and final paving
- June – Final clean-up.

Troy Anderson, SEH's Project Representative, will be onsite during construction. He communicates with everyone on the construction team and is the fastest link to getting questions answered and problems solved.

Do not hesitate to contact Troy Anderson with any questions you may have at 320.237.5884 (cell). If you are unable to reach Troy in the field, please contact April Ryan at the SEH office. 320.229.4329

We hope to provide accurate answers to your questions and concerns in a timely manner. However, when more than one team member needs to be consulted, it may take a little longer to provide you with accurate and up-to-date information. Your patience is appreciated!

## Thank you for your continued patience!
